Dear Dr. Burleigh:

Thank you very much for your very infomative letter  
of March 29.

I can pretty well forget checking back through the  
maternal line as both my maternal grand-parents are pure Irish. My pa-  
ternal grandmother was one, Sarah Mason, born in Coventry, England, 1855.

My first great-grandfather, William Allen Darling, was  
born in Brock Township in 1826 and married a Maria Maybee in Brock Town-  
ship in 1851. Major Maybee states that Maria is not of his lineage and  
presumes that she is from a family that settled in the Niagara district.  
Could be!

Second great-grandfather, William Darling, born in  
Victoria County in 1800 married a Jane Duel (1) (D'Uell) circa 1825.

Which brings us to John Darling and Phoebe Richmond and  
they seem to be disqualified at the post.

Major Maybee seems to have put the finger on the Maybee 1  
line, which leaves the Duel(1) line about the only one left to investigate.  
There has yet to appear any record of a Duel family in Ontario records.

As you say, we will just have to keep digging.

Yours very truly,

  
J. W. Darling.

Dear Doctor,

You have been very kind in writing me two letters recently. I realized when I had received your first letter that you had not yet received mine and so I waited. Thank you for so prompt and helpful an answer.

I did not tell you that I am a Baptist Minister (my Welsh Baptist father) or that I am currently trying to finish an M.A. thesis in Theology (University of Windsor). Consequently, with my church and studies I am quite tied up right now. But when my slack season begins and the weather gets nice I am sure that you will see me down your way. *with part of my family,* Perhaps pulling a sailboat and looking for a tenting place in a park. I am hoping that if I write ahead to you then that you will be so kind as to give me some of your time, or at least allow me to look at some of your records. (From the length of your interest in the local history there, 47 years, I wondered if you are retired).

In the meantime, It seems that I should begin in the Toronto libraries and cover some of the published material which you mentioned. Thank you for the invitation to become a member of your local branch of the UE Association. The distance between here and your area is a barrier for monthly meetings in the wintertime. I wondered if I joined a local branch here ~~wether~~ or not I could visit your branch in nice weather? At any rate, I do appreciate your interest in helping me in my research. I expect that you will hear from me again in late spring or early summer. Thank you for letting me know that family tradition that Peter, the husband of the Lott girl, is from the Loyalist family is true.

Yours sincerely,

*E. L. Johns*
